ON THE DIAGNOSIS, TREATMENT AND CONTROL
OF PULMONARY TUBERCULOSIS**

Report of the Task Force on
Tuberculosis 2000

TABLE OF CONTENTS

Preamble	iii
Background	
Rationale.....	iii
Objectives.....	iv
Methods Employed.....	iv
Introduction	
Tuberculosis Problem in the Philippines.....	1
Rationale for the Creation of TB Consensus Statements 1999.....	1
Diagnosis of Pulmonary Tuberculosis	
Clinical Diagnosis.....	4
Laboratory Diagnosis.....	7
Radiologic Diagnosis.....	22
Treatment of Tuberculosis	
Drug Treatment of Choice for Newly-diagnosed PTB in the Philippines.....	36
Difference Between 2 ad 3 Drugs in the Maintenance Phase of Short-course Treatment for PTB.....	42
MDR vs non-MDR TB.....	42
Primary (initial) Drug Resistance and Secondary Drug Resistance.....	42
Rate of MDR-TB in the Philippines.....	43
Correlation Between Bacteriologic Drug Resistance Seen In-vitro with Treatment Response of Patients.....	45
Interpreting the Results of Drug Sensitivity Testing for Mycobacteria.....	46
Risk of Treatment Failure for MDR-TB vs. non-MDR TB.....	47
Difference in Treatment Response Between Primary (Initial) Drug Resistance and Secondary Drug Resistance.....	48
Predictors of MDR-TB.....	49
Avoiding Drug Resistance.....	50
Empiric Therapy for MDR-TB Suspect.....	51
Role of Adjunctive Treatment for MDR-TB.....	52
Treatment for TB in Special Situations.....	56
Recommended Secondary Chemoprophylactic Regimen.....	80
TB Control Strategies and Prevention in the Philippines	
State of Tuberculosis Control in the Philippines.....	96
Reasons Why Tuberculosis Remains Uncontrolled in the Philippines.....	100
Improving Case Holding and Case Finding.....	105
Improving TB Prevention Efforts.....	108
Appendices	112
Acknowledgments.....	116
